Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: it was agreed that there is no record of receiving the response filed on October 29, 2003. The response will be refiled together with the filing receipts. The amendment attached with the response amended the claims to recite that at least one of the coils is disposed in a plane parallel to the plane of the other coil. It appears that none of the reference disclose coils in parallel planes, however, the examiner will need to further review the prior art of record and further search may be necessary. Applicant will considered further amending the claims to more closely correspond to fig. 8 .
